JOURNAL OF ANATOMY

QL
801
J7

CONDUCTED ON BEHALF OF THE ANATOMICAL SOCIETY
OF GREAT BRITAIN AND IRELAND BY

G. CAUSEY
R. E. COUPLAND
J. T. EAYRS
T. W. GLENISTER
E. G. GRAY
F. R. JOHNSON
J. D. LEVER
G. J. ROMANES
R. J. SCOTHORNE
D. BRYNMOR THOMAS
R. L. HOLMES (EDITOR)

VOLUME 105
JULY—NOVEMBER 1969

CAMBRIDGE
AT THE UNIVERSITY PRESS
1969

PUBLISHED BY
THE SYNDICS OF THE CAMBRIDGE UNIVERSITY PRESS
Bentley House, 200 Euston Road, London, N.W.1
American Branch: 32 East 57th Street, New York, N.Y. 10022

Printed in Great Britain at the University Printing House, Cambridge

Contents

PART 1—JULY 1969

PAGE

The intramuscular nerve endings in dystrophia myotonica—a biopsy study by vital staining and electron microscopy. By D. E. Allen, A. G. Johnson and A. L. Woolfe 1

The intramuscular ganglia of the cat's tongue. By M. J. T. Fitzgerald and and R. W. Alexander 27

Segmental incorporation of [^{3}H] leucine in the rat spinal cord. By Goyo Koya, and Reinhard L. Friede 47

Bulbospinal fibres and their nuclei of origin in *Lacerta viridis* demonstrated by axonal degeneration and chromatolysis respectively. By L. R. Robinson 59

The origin of intramural ganglia. II. The trunk and neural crest as a source of enteric ganglion cells. By Ann Andrew 89

An investigation of the development of the wing skeleton in the quail (*Coturnix c. japonica*). By A. B. G. Lansdown 103

Some morphological observations of the ultimo-branchial gland in the rainbow trout, *Salmo gairdneri*. By Douglas R. Robertson 115

Differentiation of the surface epithelium of the hamster ovary. An electron microscopic study. By Brenda S. Weakley 129

Ultrastructure of the epithelium of the human umbilical cord. By A. D. Hoyes 149

Observations on the formation of secretion by the cells of the 'convoluted granular tubules' of the submandibular gland of the rat. By Giovanni Materazzi and Lucia Vitaioli 163

Histochemical observations on Paneth cells. By Klaus Lewin 171

In Memoriam: Michael Francis Hickey, M.A., M.B., B.S. 177

Book Reviews 179

Proceedings of the Anatomical Society of Great Britain and Ireland, March 1969 183

PART 2—NOVEMBER 1969

PAGE

The innervation of muscle spindles in the lizard *Tiliqua nigrolutea*. By UWE PROSKE 217

Free nerve endings in skeletal muscle of the cat. By M. J. STACEY . . 231

The ultrastructure and somatic efferent synapses of small granule-containing cells in the supererior cervical ganglion. By MARGARET R. MATTHEWS and G. RAISMAN 255

Ultrastructural features of the immature peripheral nerve. By G. ALLT. . 283

Species differences in internode formation following two types of peripheral nerve injury. By JEAN M. JACOBS and J. B. CAVANAGH 295

Enzyme histochemistry of the parts intermedia of ox pituitary gland. By A. T. RAFTERY 307

Formation of lymphatic nodules in the guinea-pig thymus after injection of TAB vaccine with histamine. By M. KOTANI, A. YAMASHITA, M. MIYAMATO, M. FUKANOGI, K. OKADA, T. SHIMIZU, S. TERAUCHI and K. SEIKI 317

The functional anatomy of the bronchial muscle of the bird. By A. S. KING and A. F. COWIE 323

Human foetal epithelial glycogen: a histochemical and electronmicroscopic study. By ROBERT LEV and HERBERT WEISBERG 337

Cilia in cell-cultured fibroblasts. I. On their occurrence and relative frequencies in primary cultures and established cell lines. By D. N. WHEATLEY 351

Mitochondrial organization in skeletal muscle of the rat soft palate. By C. R. LEESON and T. S. LEESON 363

Cytoplasmic changes during the trophoblastic giant cell transformation of blastocysts from normal and ovariectomized mice. By A. D. DICKSON 371

The origin of the lateral cutaneous nerve of forearm and its anaesthesia for modified brachial plexus block. By IAN A. OLSON 381

Desmosomes, cilia and acanthosomes associated with keratocytes. By J. W. SMITH, K. N. CHRISTIE and J. FRAME 383

The innervation of the upper ureter in man and in the rat: an ultrastructural study. By R. G. NOTLEY 393

Sodium localization in the cerebellum. By KENNETH A. SIEGESMUND . . 403

BOOK REVIEWS 415

PART 3—NOVEMBER 1969

PAGE

Satellite cells and myogenesis; a study in the fruit-bat web. By J. C. T. Church 419

An ultrastructural study of the rat's suprachiasmatic nucleus. By Angela Maria Suburo and Amanda Pellegrino de Iraldi 439

Intestinal and cloacal lymphoepithelial glands in the Australian echidna: a possible homologue of the bursa of Fabricius. By G. C. Schofield and R. N. P. Cahill 447

Lymphatics: normal anatomy in the dog hind leg. By Josef J. Pflug and James S. Calman 457

The development of the human cerebrospinal fluid pathway with particular reference to the roof of the fourth ventricle. By Gordon Brocklehurst 467

Keratinization in the mucosa or the ventral surface of the chicken tongue. By Frank Robert Susi 477

A histochemical study of gut maturation. By R. M. Williams and F. Beck 487

The time-factor in transport of particles by jejunal absorptive epithelium. By A. Mohiuddin and M. S. Khan 503

Fine structure of rodent common bile duct epithelium. By Kazuyori Yamada 511

Histochemical localization of kallikrein granules in the submaxillary gland of the guinea-pig. By P. F. Heap and K. D. Bhoola 525

The *in vivo* staining of bone with alizarin red S. By Henning Vilmann . 533

A histochemical study of ovo-implantation in the mouse. By Y. C. Wong and A. D. Dickson 547

The development of the placenta in the sheep and goat: an electron microscope study. By A. M. Lawn, A. D. Chiquoine and E. C. Amoroso . 557

The localization of glucose-6-phosphate hydrolysing enzyme in hepatocytes, red blood cells and leukocytes in the liver of the newborn rat. By Sidney I. Rosen 579
